

SIMRAN CHHABRA

PRODUCT DESIGNER

(347) 226-0627 | skc9841@nyu.edu | LinkedIn | Portfolio

SUMMARY

Product designer with a background in UX research, interaction design, and visual design. Experienced in taking products from research and information architecture through interaction design, prototyping, and implementation, with a focus on consumer products and early-stage teams.

PRODUCT DESIGN EXPERIENCE

Freelance UX Design Consultant, Avenyu | Jun 2026 - Present

- Designed core booking and entry journeys for a pre-launch live-events marketplace for indie music events, including Split Pass (individual QR codes for shared bookings) and a sold-out waitlist experience.
- Own end-to-end product design as the platform expands from consumer booking to a B2B marketplace for organizers, venues, and vendors.

Product Design Intern, Dream Of | Jun 2025 - Aug 2025

- Conducted surveys and interviews with Indian women ages 25-40 across Tier 1 and 2 cities, uncovering a strong preference for haircare formulated for their specific hair types; insights directly shaped the shop and product-page strategy.
- Designed the initial e-commerce experience in Figma (homepage, shop, product, bundle, and checkout flows). The information architecture I designed led to a projected 25% improvement in product-page engagement and a 15% increase in add-to-cart rate in prototype usability tests.

Product Design Intern, Upload Digital | Jul 2023 - Jan 2024

- Contributed research and prototyping to a data-visualization report on women in India's climate workforce that reached 1,050+ downloads within two months of launch, growing to 2,400+ downloads by month six.
- Supported research and prototyping for Even's healthcare website redesign, simplifying complex insurance plans into clearer user flows. Usability testing showed a 40% drop in time-to-understand plan options and a 28% reduction in support-related drop-offs on the redesigned flows.

ADDITIONAL EXPERIENCE

Research Assistant, NYU Tandon | Aug 2025 - May 2026

- Conducted and coded interviews with immigrant food-delivery workers in NYC; research contributed to a project presented at the 2026 Harvard-Yale Southeast Asian Studies Graduate Conference and an upcoming book.
- Recruited experts across law, technology, and city government for an NYU/LSE study on AI and immigration, contributing research presented at the 2026 AI / Migration / Futures workshop at LSE.

Community & Brand Associate, WeWork India | Apr 2022 - Jun 2023

- Planned and ran 75+ community events across two Bengaluru locations serving 850+ members, growing recurring events to 50+ attendees within 2-3 months; designed event invites, weekly newsletters, and in-app content.

Founder & Designer, Si.Ch Clothing | Aug 2021 - Jun 2023

- Founded and designed a sustainable clothing label, owning product design, brand identity, e-commerce, and customer-facing content end to end; sold 400+ pieces in one year.

PROJECTS

Whspr, Crowdsourced Urban Platform for Women | MS Thesis

- Ran a 14-week research study with 5 in-depth interviews and 11 guerrilla intercepts that led the team to abandon the original safety-app concept and reframe the product around women's firsthand knowledge of places.
- Designed search, place-profile, contribution, and authentication flows, introducing a deliberately higher-friction contribution model to prioritize trust and content quality over volume.

GestureSketch, Creative Drawing Tool

- Interviewed 7 users to identify barriers to creative expression, then designed and built a working gesture-controlled prototype with MediaPipe and JavaScript that makes starting easier without taking control away from the user.

SKILLS

Product Design & UX: User Research, Usability Testing, Interaction Design, Information Architecture, Prototyping, Wireframing, User Flows, UX Writing, Responsive Design, Accessibility (WCAG)

Tools: Figma, Adobe Creative Suite, Canva, MediaPipe, HTML/CSS, JavaScript

EDUCATION

New York University, Tandon School of Engineering | 2026

MS, Integrated Design and Media

National Institute of Fashion Technology, Gandhinagar | 2020

B.Des, Fashion Design

COMMUNITY AND LEADERSHIP

Founder, Eka, a nonprofit teaching a gender-stereotype curriculum to middle schoolers.

Volunteer, Boondh Cups, menstrual hygiene education and reusable feminine health product distribution in Gujarat.

Volunteer, Integrated Animal Care Center (Auroville), animal care and fundraising for shelter renovation and expansion.
